

Safe Workplace

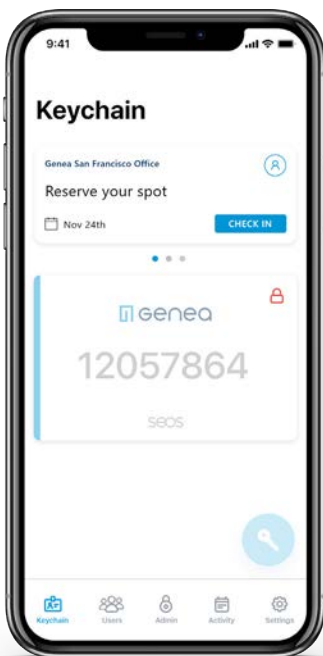

Keeping people healthy and safe is a top priority for all businesses. Organizations are reconfiguring their spaces to allow for physical distancing to ensure all staff, visitors and employees are safe and adhere to protocols.

Now you can combine Genea's Access Control technology with Safe Workplace to track, manage, and enforce capacity limits for any space.

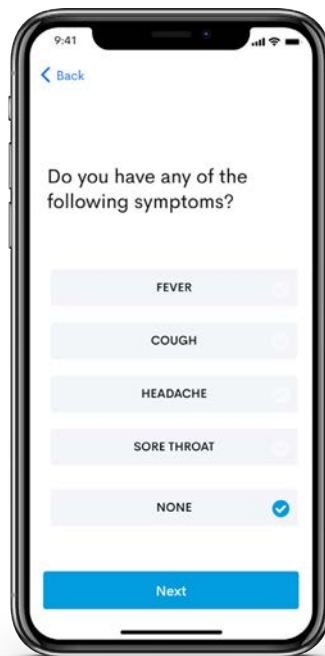

Safe Workplace is a safety feature built on top of Genea's Access Control and Visitor Management platform that extends into capacity planning, contact tracing, compliance and alerting, all while streamlining the employee experience.

Features

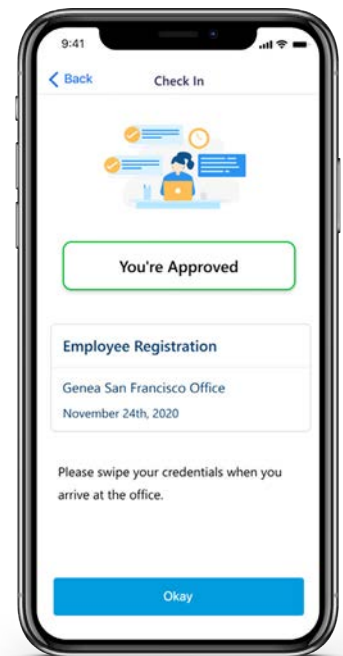

- Seamless mobile check-in/check-out for employees
- Capacity settings & alerts
- Contact tracing & reporting
- Monitor activity levels
- Grant access with workflows
- GDPR and SOC2 compliance
- Data collection customization
- Integrations with body temperature scanners

1. Reserve Your Spot
Request access & check-in from our mobile or web app.
