

# Considering a New Access Control System?

Before spending unnecessary dollars to replace your current hardware, check if your system is listed below. If so, it may require nothing more than a simple, cost-effective software reconfiguration.

**Software Take Over Systems:** If you currently have any of these software systems, Genea can simply reconfigure your master controller and take over the software. No rip and replace required.

**AVIGILON<sup>+</sup>**

**Feenics**

**Genetec**

**RS Technologies**

**OPEN OPTIONS<sup>®</sup>**  
— ACCESS TECHNOLOGY —

**Schneider Electric**

**LENEL**

**Honeywell\***

\*Not guaranteed

**Form Factor Replacement:** If you are using these systems, it is possible that Genea will only need to replace the master controller while leaving all the door controllers in place.
