

Cloud-based Security Meets Mobile Credentials in Apple Wallet

Total access from parking garage to suite - right from your iPhone. .

The Benefits

Faster provisioning for administrators, added convenience for employees. It's a win-win.

Assign and distribute mobile key cards remotely.

Add security and convenience by storing key cards in Apple Wallet.

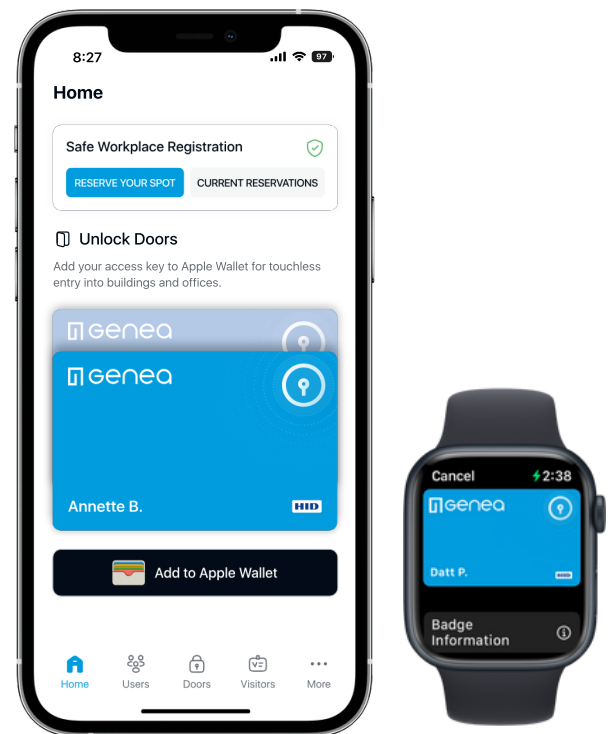

Sync to your Apple Watch for access without an iPhone.

NFC technology for instant reader response.

Power Reserve allows key cards to function up to five hours after your battery runs out.

From within Genea Security, admins can customize and assign credentials. These credentials can then be stored as a key inside Apple Wallet.
