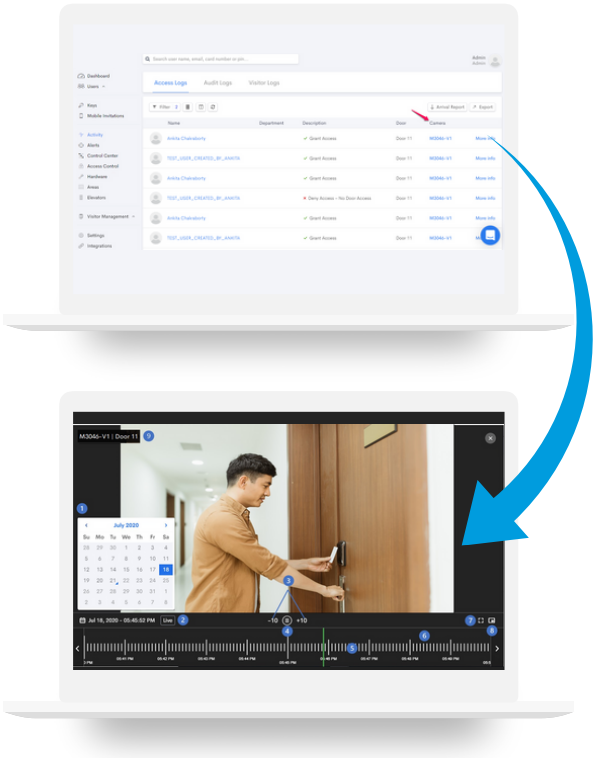
genea tyco

The Genea + Tyco Integration

Experience cloud-based security and video surveillance at its finest with the Genea + Tyco integration.

Sync Events in Real Time

Using an API key, system administrators can sync door access events to video footage. Each time an access event occurs, corresponding video is sent to the Genea Security dashboard. Just click and view.



Simple Setup

Integrating access control with your video management system has never been easier.

- Click the integrations tab within the Genea Security dashboard
- Enter your Tyco API Key
- Customize your video capture settings
- Map your Tyco cameras to your Genea doors

Intuitive Features

Genea Security + Tyco gives you the security you need from only one dashboard.

- View live video feeds
- Map cameras to the doors
- Reference and compare access events to video footage
